Profile

I am Shahnawaz Hosan Chowdhury, a passionate Cybersecurity Research Enthusiast with a growing focus on AI/ML Security, Network Defense, and Digital Forensics. I am currently a 3rd-year CSE student with a strong academic record, continuously building my expertise through hands-on labs, SQL/DBMS practice, and foundational security training.

My long-term ambition is to pursue a fully funded PhD or a Masters by Research abroad especially in the USA, Germany, Switzerland, or Australia in the field of Cybersecurity or AI-driven Security Systems.

I am particularly fascinated by how Machine Learning can enhance threat detection, automate incident response, and secure modern digital infrastructures. Exploring the intersection of AI and security motivates me to deepen my knowledge and contribute to impactful research that strengthens global cyber resilience.

I value discipline, consistency, curiosity, and self-driven learning, and I am committed to developing a strong research profile early in my academic journey.

Research Interests:

- Cybersecurity
- AI/ML Security
- Secure & Trusted Systems

Future Goal:

To earn a fully funded PhD in Cybersecurity / AI Security and contribute to cutting-edge research.

Strengths:

- Strong curiosity
- Analytical problem-solving
- Quick self-learning
- Research mindset
- Consistency & discipline

I am always open to learning, collaboration, and new research opportunities.

Education

Computer Science and Engineering, CSE Jan 2024 - Dec 2027
International Islamic University Chittagong

Certificates

- Certificate of Participation – Workshop on "From Idea to Publication: Conference Paper" Nov 2025
- Winner – Quarter-Final Round, ICT Olympiad Bangladesh (Season 3)
